User Preferences

- Gallery Layout
- Light or Dark Mode

Why Calc++ is better than existing projects

- All data is stored on device and does not exist outside of application.
- No ads.
- FREE!
- Native build.

What next? / Contributions.

- Additional data representation (videos, text documents, etc.)
- Improve calculator functionality.
- Improve UX/UI.
- Contribution guidelines on [GitHub](#).
 - MIT License
 - ASPL License
